Prizes, Prizes, Prizes! It's what the National Payroll Week contests are all about and each year APA is honored to reward chapters for their hard work! Every year judging the contest entries to determine the winners is a "taxing" process for the judges. In fact, many have likened it to filling out assorted IRS forms. There are just so many different activities and combinations of activities to consider. Unfortunately, it is simply impossible to reward every chapter with the first place award that they deserve for spending countless hours planning and carrying out their many activities.

This year was another tough one for judges as they searched for details that distinguished one chapter from another. In the end the following chapters were deemed to have excelled in certain aspects with their NPW activities. However, it should be noted that each chapter that actively participates in National Payroll Week through community, education, political, or media outreach is a winner by any standard, especially in the eyes of their respective communities.
